For outstanding administrative support provided to the Center for Cancer Research and the Office of the Director, NCI, during 2006.

Sandy Montgomery-Aker

For outstanding administrative support of NCI's clinical research programs.

Nelson Garcia

For consistently providing service well beyond the requirements of his job to ensure the timely funding of grants supported by the Branches within OCTR.

W. Marston Linehan, M.D.

For outstanding achievements in defining the molecular genetics of renal cell carcinoma, and translating these findings into more effective patient treatments.

Crystal L. Mackall, M.D.

For outstanding leadership as Acting Chief of the Pediatric Oncology Branch.

Kevin A. Camphausen, M.D.

For exceptional leadership and service to the Center for Cancer Research by accepting the responsibilities of Acting Chief of Radiation Oncology Branch.

John E. Janik, M.D.

For exceptional and sustained service as Chair of the NCI Institutional Review Board.

Karoll J. Cortez, M.D.

For outstanding clinical care and translational research of infections in children with cancer and hematopoietic stem cell transplantation.

David J. Goldstein, Ph.D.

For tireless efforts to identify cutting edge technology and make it easily available to Center for Cancer Research investigators.

Jonathan S. Wiest, Ph.D.

For exceptional efforts in recruiting, training, and mentoring Center for Cancer Research fellows.

Ying E. Zhang, Ph.D.

For notable contributions to understanding the biological functions and molecular signaling mechanisms of the TGF-beta family of growth factors.

Ettore Appella, M.D.

For four decades of pioneering research advancing the fields of p53, immunology, and HIV.

Zuben E. Sauna, Ph.D.

For major contributions to our understanding of the mechanism of action of ATP-dependent transporters over the past 10 years.

Nadya I. Tarasova, Ph.D.

For outstanding work in the development of peptides targeting the SMO protein, a key regulator of cancer stem cells.

Mark E. Dudley, Ph.D.

For outstanding achievement in developing techniques for generation and expansion of anti-tumor lymphocytes for melanoma patients, and for excellent supervision of the Cell Production Facility.

Jan M. Woynarowski, Ph.D.

In recognition of exemplary and innovative service provided to the NCI Office of the Director for the development of technologies-and-genomics-related funding opportunities in 2006.

For effectively leading the Mouse Models of Human Cancers Consortium (MMHCC) global program, seminars, and workshops.

Stephen T. White, B.S., M.S.

During a national crisis, led the NCI effort to rapidly restore NCI-supported research efforts damaged or destroyed after Hurricane Katrina.

Philip E. Castle, Ph.D., M.P.H.

For his leadership in guiding the translation of human papillomavirus testing into cervical cancer screening for low-resource regions of the United States.

Louise A. Brinton, Ph.D.

Dr. Brinton has selflessly and brilliantly guided the Hormonal and Reproductive Epidemiology Branch, combining scientific leadership, administrative excellence, and unparalleled, caring mentorship.

Ruth A. Kleinerman, M.P.H.

For research providing the first definitive evidence of gene-radiation interactions underlying excess risks of multiple types of subsequent cancers in retinoblastoma patients.

Edward L. Korn, Ph.D.

For contributions to the statistical planning, monitoring, and evaluation of the NCI's therapeutic clinical trials and development of new statistical methodology.

Jo Anne Zujewski, M.D.

For leadership in developing "Pre-operative systemic therapy of invasive breast cancer-reviewing the state of the science exploring new research directions." March 26-27, 2007, NCI.

David Stinchcomb, M.A., M.S.

For outstanding programmatic and trans-agency leadership of research in geographical information systems (GIS).

Pebbles Fagan, Ph.D., M.P.H.

For superior leadership, coordination, collaboration, and dedication in addressing tobacco-related health disparities.

Eva Szabo, M.D.

For exceptional leadership and coordination in the design and implementation of the Phase I/II Chemoprevention clinical trials consortia program.

Philip C. Prorok, Ph.D.

For outstanding statistical leadership in the design and implementation of the Prostate, Lung, Colorectal and Ovarian cancer screening trial.
